

FLEXcon's FLEXmount® SELECT™ "Value" line of pressure-sensitive double-coated products for mounting and laminating graphics and photos.

Typical Applications

- Point-of-Purchase Graphics
- Photo Mounting and Laminating
- Nameplates
- Trade Show and Event Graphics

Performance Benefits:

- FLEXmount® SELECT™ adhesives promote easy application and excellent adhesion to a variety of smooth high- and low-surface energy surfaces
- Permanent and removable/repositionable adhesives accommodate a variety of applications, and graphic and photo sizes
- Constructions include double-coated foam and clear and opaque carrier films
- Products are offered with a variety of release liners for roll- or sheet-form converting
- FLEXmount® SELECT™ is FLEXcon's VBS "Value" line of products for reliable and durable graphic attachments

Meeting Your Requirements:

- Standard products available in Quick-Ship  for fast delivery

Polyester

- FLEXmount® SELECT™ DF021621
- FLEXmount® SELECT™ DF051521
- FLEXmount® SELECT™ DF071735
- FLEXmount® SELECT™ DF132311
- FLEXmount® SELECT™ DF462211

Vinyl

- FLEXmount® SELECT™ DF053421

Foam

- FLEXmount® SELECT™ DF084852
- Custom constructions available in flexible order quantities

We excel in the design and manufacture of custom pressure-sensitive product constructions that meet your specific converting and end-use requirements. FLEXmount® SELECT™ Mounting and Laminating Solutions

FLEXmount® SELECT™ DF021621

0.5 mil double-coated **clear polyester** coated with a **removable** pressure-sensitive adhesive on one side and a **permanent** pressure-sensitive acrylic on the other side. Removable acrylic adhesive has low tack and low shear, permanent pressure-sensitive acrylic adhesive bonds well to printed base film surfaces. Backed with an 80 lb. moisture-stable double-faced release liner ideal for **roll-form and roll-to-sheet converting**.

FLEXmount® SELECT™ DF051521

0.5 mil double-coated **clear polyester** film coated on both sides with a high peel, high shear, **aggressive permanent** adhesive which resists cold flow and ooze. Suitable for a wide range of temperature conditions. Excellent adhesion to a wide variety of smooth surfaces, including painted and unpainted metals and high- and low-surface energy plastics. Backed with an 80 lb. double-faced release liner ideal for **roll-form and roll-to-sheet converting**.

FLEXmount® SELECT™ DF071735

0.5 mil double-coated **clear polyester** tape with **general purpose permanent** rubber adhesive. This versatile, cost effective product has high initial tack and adheres well to a wide variety of surfaces including plastics and high- and low- surface energy substrates. Backed with a 55 lb. semi-bleached Kraft release liner ideal for **roll form converting**.

FLEXmount® SELECT™ DF132311

1.0 mil double-coated **clear polyester** film ideal for applications requiring superior image clarity. **Permanent** pressure-sensitive acrylic adhesive possesses excellent clarity, wet-out characteristics and adhesion to a wide range of surfaces. Backed on both sides with an ultra smooth clear polyester liner ideal for **roll-form converting**.

FLEXmount® SELECT™ DF462211

1.0 mil double-coated **clear polyester** film ideal for applications requiring superior image quality. Coated with a **removable** pressure-sensitive adhesive on one side and a **permanent** pressure-sensitive acrylic on the other side.

Permanent pressure-sensitive acrylic adhesive bonds well to printed base film surfaces, backed with an ultra-smooth clear polyester release liner that provides excellent adhesive wetout for optimum clarity. Removable/repositionable pressure-sensitive acrylic adhesive bonds well to glass, metal, and high-surface energy plastics, and provides ease during installation and removal. Backed with an ultra smooth blue polyester release liner ideal for **roll-form converting**, it also helps identify which side is applied to the printed graphic.

FLEXmount® SELECT™ DF053421

3.5 mil double-coated **flexible white vinyl** coated with a **removable** pressure-sensitive adhesive on one side and a **permanent** pressure-sensitive acrylic on the other side. Provides an excellent opaque barrier with superior wet-out characteristics. Removable pressure-sensitive acrylic adhesive bonds well to a wide variety of smooth surfaces while removing cleanly. Permanent pressure-sensitive acrylic adhesive bonds well to a variety of surfaces including high-surface energy plastic, foamboard and polyester fiber. Backed with an 80 lb. moisture-stable double-faced release liner ideal for **roll-form and roll-to-sheet converting**.

FLEXmount® SELECT™ DF084852

.062" thick pressure-sensitive **white foam** mounting tape with a highly aggressive **permanent** synthetic rubber adhesive. This product offers excellent initial tack with high shear and peel strength. Adheres to a wide variety of low-surface energy substrates. Low density foam provides good conformance to textured and rough surfaces. Backed with a 60 lb. double -faced release liner ideal for **roll form converting**.
