

Benefits

- BS 5609 compliant
- 2 year outdoor durability

Features

- 3.5 mil flexible white vinyl provides excellent chemical resistance for drum labeling applications
- The internal strength of the film facilitates removal during reconditioning
- Printable via resin and wax/resin thermal transfer; UV & solvent screen; UV, solvent & water flexo; laser (toner); and narrow-format UV inkjet
- Unique matte topcoat allows for greater than four times as many die revolutions before retooling compared with competing label materials
- Matte filled topcoat allows for successful printing with a wider range of wax/resin ribbons
- Topcoat provides excellent resistance to chemicals, moisture, smudging and scratching
- Adhesive system is designed to bond well to painted steel, fiber and plastic drums
- Product can be applied at low temperatures
- High peel, high shear adhesive resists cold flow and oozing, gaining efficiencies in diecutting and dispensing
- Fanfoldable 77 lb. layflat roll-to-sheet liner feeds well through most sheet-fed, continuous laser and thermal transfer printers
- Release liner is ideal for cut sheet, fanfold and roll-to-sheet converting
