

## Benefits

- 6-month change notification
- 21 CFR 175.105 compliant\*
- ISO10993-5, - 10 (container side) compliant\*
- REACH compliant

## Features

- Print-receptive film printable via thermal transfer and conventional print technologies
- Permanent pressure-sensitive adhesive with high tack and chemical resistance; bonds well to a wide range of surfaces
- Passes centrifuge process
- Removable liner exposes adhesive to apply "your film"
- Biocompatible adhesive mitigates risk of migration through packaging
- Engineered for extreme temperature cycling and water submersion
- Backed with a 50 lb. bleached kraft release liner made from up to 30% post-consumer waste, ideal for roll-form converting
- Liner is suitable for optical sensing on most thermal transfer printers

## Additional Details

\*FDA CFR 175.105: Adhesives may be safely used as components of articles intended for use in packaging, transporting, or holding food in accordance with the prescribed conditions. ISO 10993 Biological evaluation of medical devices: Part 5:Tests for in vitro cytotoxicity; Part 10:Tests for irritation and skin sensitization.

"Fit-for-use" testing is recommended under actual application conditions. [Please click here to view the complete product data sheet.](#)

## Technical Data

### Physical Properties

| Thickness (Mils [microns]) | Mils            | Microns     |
|----------------------------|-----------------|-------------|
| Total Product              | 10.6            |             |
| Film                       | 3.5 +/- 10 %    | 79          |
| Adhesive                   | 0.8-0.9 +/- 0.1 | 20-23 +/- 3 |
| Adhesive 2                 | 1.4-1.5 +/- 0.1 | 36-38 +/- 3 |
| Liner                      | 2.0 +/- 5 %     | 51          |
| Liner 2                    | 3.1 +/- 10 %    | 79          |

Test Method: ASTM D 3652 (Modified for use with non-tape product)

Adhesion Properties

| Ultimate Peel from | Average Oz/In | (N/m) |
|--------------------|---------------|-------|
|--------------------|---------------|-------|

Test Method:

| Additional Properties           | Value | Test Method |
|---------------------------------|-------|-------------|
| Expected Shear (hours)          |       |             |
| Tack (g)                        |       |             |
| Expected Exterior Life          |       |             |
| Additional Information          |       |             |
| Service Temperature             |       |             |
| Minimum Application Temperature |       |             |
| Storage Stability               |       |             |
